

Installation Notes:

1. Double click on the “Setup.exe” File
2. If prompted to download the “.NET Framework” click “OK”
3. Once prompted to install program, click “Install”
4. During the installation, you will be warned of an installation error as follows:

When this opens, click on “Continue”

Operation Notes:

1. You will be able to operate the timer 1 time prior to needing to send contact information to FinTek. You will then have to update your contact information every year with FinTek in order to keep using the timer. This update will be prompted automatically
